DATE MAILED: 06/07/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

Period for Reply

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).

Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

 Paper No(s)/Mail Date. _____
 5) ☐ Notice of Informal Patent Application (PTO-152)
 6) ☐ Other: _____

DETAILED ACTION

Specification

The abstract of the disclosure is objected to because the abstract may not exceed 150 words in length, as required by 37 CFR 1.72(b). Correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hruska (US 6,199,781) in view of Sanderson (US 4,938,652) and Ronnblom (US 5,338,148). Hruska discloses substantially all of the claimed structure including:

1. a chassis (101) having a front (102) and back end and a left and right side;
2. a processing tub (1) with a discharge opening (40) located in one of the side walls;
3. a disintegrator (20);
4. a manipulator (30); and
5. a fork lift (50; Figure 2).

Hruska's fork lift is not adjustable. A fork lift with a variety of adjustable feature is routine and well known in the art. In a closely related art pertinent to the problem,

Art Unit: 3725

Sanderson discloses a fork lift which is adjustable in length and Ronnblom discloses a fork lift which is adjustable in separating distance (Figure 6) in order to help lift material of different configurations. Therefore, it would have been obvious to one skilled in the art at the time the invention was made to provide Hruska with a fork lift with routine features, including a fork lift which is adjustable in length and adjustable in separating distance, in order to lift material of different configurations, as taught by Sanderson and Ronnblom.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hruska (US 6,199,781) in view of Sanderson (US 4,938,652) and Ronnblom (US 5,338,148), further in view of Raben (US 5,562,392). Claim 3 calls for a material carrier extending inwardly towards the opposing forks. In a closely related art, Raben discloses a fork lift with a material carrier extending inwardly towards the opposing forks (216) in order to prevent material to pass between the forks. Therefore, it would have been obvious to one skilled in the art at the time the invention was made to provide Hruska (as modified) with a fork lift with a material carrier extending inwardly towards the opposing forks in order to prevent material to pass between the forks, as taught by Raben.

Conclusion

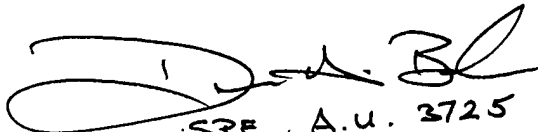

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason Y Pahng whose telephone number is 571 272 4522. The examiner can normally be reached on 9:00 AM - 7:00 PM, Monday-Thursday.
